
ASO Customer Insights - Journeys Standard

Compliance profile, triggers, segments, email assets, journeys, consent governance, and writeback rules.

GitHub path: `customer-insights/ASO_Customer_Insights_Journeys_Standard.md`

Version 1.1 - public customer-ready split package - refined for readability and GitHub publishing

Safety note: this public reference pack must not contain tenant IDs, credentials, secrets, real customer data, private endpoints, or connection strings.

Customer Insights - Journeys communication plane

Customer Insights - Journeys is the only outbound customer lifecycle communication execution layer. This file defines compliance, triggers, segments, emails, journeys, writeback, and data boundaries.

No customer lifecycle emails may be sent through Outlook, Power Automate, Foundry, Sales AI agents, or HubSpot. Customer Insights - Journeys owns outbound lifecycle communication.

Communication assets

Asset	Naming / standard	Required rule
Compliance profile	Global Commercial or region-specific equivalent	Use approved preference center, purpose Sales Lifecycle, topics Lead, Qualified Lead, Opportunity, Quote Proposal, Order, Onboarding, Retention, Expansion.
Triggers	ASO <Lifecycle Action> Requested	Attributes: recordType, recordId, correlationId, lifecycleStage, journeyKey, complianceProfileName.
Segments	<Entity/Audience> - <Lifecycle> - <Readiness>	Use normalized Dataverse fields: lifecycle stage, communication state, participation status, email consent status.
Emails	EML - <Lifecycle> - <Purpose>	Authenticated domain, compliance profile, unsubscribe/preference link, approved Dataverse fields only.
Journeys	JRNY - ASO - <Lifecycle> - v<major>	Publish only after test send and compliance validation.
Writeback	Normalize into Dataverse fields and Journey Participation Ledger	Record starts, completions, exits, failures, and meaningful interactions.

Recommended lifecycle triggers

Trigger	Attributes
ASO Lead Nurture Requested	recordType, recordId, correlationId, lifecycleStage, journeyKey, complianceProfileName
ASO Qualified Lead Follow Up Requested	recordType, recordId, correlationId, lifecycleStage, journeyKey, complianceProfileName
ASO Opportunity Progression Requested	recordType, recordId, correlationId, lifecycleStage, journeyKey, complianceProfileName
ASO Quote Proposal Requested	recordType, recordId, correlationId, lifecycleStage, journeyKey, complianceProfileName
ASO Order Confirmation Requested	recordType, recordId, correlationId, lifecycleStage, journeyKey, complianceProfileName
ASO Onboarding Requested	recordType, recordId, correlationId, lifecycleStage, journeyKey, complianceProfileName

Recommended segments

Segment	Audience	Core conditions
Lead - Nurture Ready	Lead	Lifecycle Communication Stage = Lead; Communication State = Eligible; Journey Participation Status is not Active; Email Consent Status = OptedIn.
Qualified Lead - Follow Up Ready	Lead or Contact	Lifecycle Communication Stage = QualifiedLead; Communication State = Eligible; Email Consent Status = OptedIn; Journey Participation Status is not Active.
Opportunity - Proposal Ready	Contact with related opportunity	Related opportunity stage = Opportunity or QuoteProposal; Communication State = Eligible; Email Consent Status = OptedIn.
Order - Onboarding Ready	Contact	Lifecycle Communication Stage = Order or Onboarding; Communication State = Eligible; Email Consent Status = OptedIn.
Account - Retention Ready	Account or Contact	Retention readiness and consent conditions per operating model.
Account - Expansion Ready	Account or Contact	Expansion readiness and consent conditions per operating model.

Email asset rules

- Every email must use an authenticated sending domain.
- Every email must use the approved compliance profile.
- Every email must include an unsubscribe or preference center link.
- Personalization must use approved Dataverse fields only.
- SAP-derived facts may appear only after normalization into Dataverse fields.
- AI draft text may be used only after approval or governed template review.

Journey catalogue

Journey	Name	Entry	Critical rule
Lead Nurture	JRNY - ASO - Lead Nurture - v1	Lead - Nurture Ready or ASO Lead Nurture Requested	Publish only after test send and compliance validation.
Qualified Lead Follow-Up	JRNY - ASO - Qualified Lead Follow Up - v1	Trigger or segment	On engagement, raise task or writeback action.
Opportunity Progression	JRNY - ASO - Opportunity Progression - v1	ASO Opportunity Progression Requested	Write participation and interaction signals back to Dataverse.
Quote Proposal	JRNY - ASO - Quote Proposal - v1	ASO Quote Proposal Requested	Trigger follow-up task if no engagement after defined period.
Order Confirmation	JRNY - ASO - Order Confirmation - v1	After SAP order reference is persisted in Dataverse	Never send before SAP response is validated.
Onboarding	JRNY - ASO - Onboarding - v1	Order/Onboarding readiness	Use validated order and onboarding state only.

Writeback model

Power Automate must maintain normalized Dataverse fields: Communication State, Journey Participation Status, Last Journey ID/Name, Last Interaction Type, Last Interaction On, Consent Status, and Communication Hold Reason. Create a Journey Participation Ledger row for each journey start, completion, exit, failure, and meaningful interaction.
